

Farhad M. Nourbaksh

Director, Dynamics GP Solutions ISG Solutions

Farhad Nourbaksh is the director of the Microsoft Dynamics GP practice at ISG Solutions. He is responsible for managing Dynamics GP projects for our clients, which includes implementing GP, integrating GP with iMIS, optimizing and extending GP. As director of GP Solutions, he consults with association CFOs and other members of the finance and accounting groups to help them get the most out of their GP software.

With more than 20 years of experience leading professional consulting teams in information technology systems analysis, business process reengineering, accounting and ERP system implementation and project management, Farhad is ideally qualified to help ISG's clients get the most out of their GP software. Over the course of his career he has held a variety of positions, including:

- **Vice president at ISmart**, where he was responsible for a \$26 million business unit. He managed the complete automation of the company's accounting and CRM systems, delivering a 50% improvement in productivity in many areas. He also acted as project manager and supervised project managers in more than 30 CRM and ERP automation projects for clients.
- **Vice president at Apptech**, where he managed automation projects for clients and supervised implementation of business management and ERP systems. He also established the technical department and developed the internal procedures and project management approach for efficient implementation of client automation projects.
- **Senior systems consultant and principal at Desktopix**, where he successfully completed more than 40 automation projects for ERP and accounting systems.

Farhad is an **adjunct professor at Stratford University School of Business Administration**, where he teaches courses at both the graduate and undergraduate level in areas such as project management and business transformation.

In his spare time, he likes to do research on the history of technology. He lives in Bethesda with his wife and daughter. He can be reached at 301-519-3776 x127 or fnourbaksh@isgsolutions.com.
