

Let Your Members Edit Registrations

The newest version of ISGweb lets your members retrieve previously processed registrations, make changes, add guests and print badges. Members can go to your website, find their own registration and:

- Add or change functions, including choosing different concurrent sessions.
- Pay fees for additional options (or get credit if they remove functions).
- Add guests.
- Change details on their badge.
- Change registrant special needs or demographics.
- Check in and print their badge(s).

If you have Public Views or eSeries, you can get this for free through September 30, 2010. *(It's part of our Meeting Setup and Registration module, which is one of the 10 ISGweb modules you can get free.)*

ISGweb

ISGweb makes your website work the way you and your members want it to – without custom programming.

Get 10 FREE ISGweb Modules

To celebrate our 20th year serving the association community, ISG is giving away 10 ISGweb modules for free.

This offer expires September 30, 2010.

- Unified Login & Create Account
- View & Update Profile
- Administrator
- Dues Renewal
- Meeting Setup & Registration
- Events Calendar
- Product Catalog
- Membership Directory
- Leadership Directory
- Company Management

If you have Public Views or eSeries, you are eligible to get the related ISGweb modules for free. The software is free. We are charging for implementation, as well as maintenance starting in the second year.

ISGweb is

Comprehensive

ISGweb is a suite of 20 .NET web modules that deliver real-time ecommerce, directories and database updates for your website, directly integrated with your *iMIS* membership database.

Part of your website

Data-driven forms are seamlessly embedded into your website, with the same look and feel as pages within your own site navigation and framework.

Highly flexible and configurable

Insert your own business logic to automate the application of unique association rules and enforce data accuracy.

Easy for staff to maintain

Every word of every web form is modifiable – without programming – to accommodate your changing needs.

Mature, upgradable product

Implemented over the past five years by more than 80 clients, including trade associations, medical societies, federations and tourist bureaus.
